MEMORANDUM OF UNDERSTANDING

Between

INTERNATIONAL BANK FOR RECONSTRUCTION AND DEVELOPMENT,

INTERNATIONAL DEVELOPMENT ASSOCIATION,

AND

APEC FOOD SAFETY COOPERATION FORUM

FOR

COLLABORATION ON FOOD SAFETY CAPACITY BUILDING

IN THE ASIA-PACIFIC REGION

May 18, 2011
The International Bank for Reconstruction and Development ("IBRD") and the International Development Association ("IDA") (together, the "World Bank" or the "Bank") and the Asia-Pacific Economic Cooperation Food Safety Cooperation Forum (the "APEC FSCF" or the "Other Party") (together the "Parties"),

Recognizing that the World Health Organization's Global Strategy for Food Safety issued in 2002 identified food disease as one of the leading causes of illness and death in developing economies,

Affirming that the World Food Summit of 1996 recognized that food security exists when “all people, at all times, have physical and economic access to sufficient, safe, and nutritious food that meets their dietary needs and food preferences for an active and healthy life”,

Reiterating the Niigata Declaration on APEC Food Security adopted in 2010 that “building the capacity of economies to produce, access, and distribute safe food, as well as developing appropriate food safety regulation, is an integral element of food security”,

Having in mind that food trade is increasingly becoming a global issue with complex and inter-related supply chains, which makes food safety a challenge,

Considering that such challenge can impose substantial costs on an economy in public health and economic terms, and one incident has the ability to devastate entire sub-sectors of domestic and foreign markets regardless of origin,

Noting that ensuring the safety of the global food supply has a substantial public-good dimension,

Bearing in mind that having confidence in the global food supply is essential to maintaining trust in the global trading and regulatory environment, as well as to building domestic exports markets,

Realizing that for the purpose of building domestic export markets, it is important to ensure that small-scale farmers and enterprises in developing economies participate in high-value food supply chains,
Recognizing that global and regional cooperation in the area of food safety capacity building in partnership with food safety regulators, the private sector, and the academic community enhances public health, promotes food security, supports participation by developing economies in high-value food supply chains, promotes confidence in the global food supply, facilitates trade, and provides a public good,

The Parties have agreed that this Memorandum of Understanding ("Memorandum") represents a statement of intent by the Bank and the APEC FSCF to work together towards the achievement of common objectives and outlines the basis for collaboration in building capacity to better ensure food safety.

1. **Background**

(a) The Bank is an international development institution established by the Articles of Agreement adopted by its member economies. The Bank’s mission is to reduce poverty, improve living conditions, and promote sustainable and comprehensive development in the developing world. It achieves these objectives by providing loans, concessional financing, technical assistance, and knowledge-sharing services to its member economies and through partnerships with other organizations.

(b) Further to its mission, the Bank has, for over a decade, been involved in food safety-related issues through the provision of financings to some APEC members given their importance to agricultural value chains, trade development, and public health. The Bank, through its Sustainable Development Network, has an interest in collaborating with others to foster food safety capacity in the developing world.

(c) The APEC was established as the premier forum in the Asia-Pacific region to support sustainable economic growth and prosperity in the region by championing free and open trade and investment, promoting and accelerating regional economic integration, encouraging economic and technical cooperation, and enhancing human security.

(d) Recognizing that the region accounts for over forty percent (40%) of the world population and nearly half of global food production, the APEC leaders, through the Niigata Declaration on APEC Food Security in 2010, have agreed on a collective mandate to improve food safety standards and practices in the region. With this regard, the APEC Food Safety Cooperation Forum (FSCF) was established to bring together food
safety regulators to develop a food safety framework and strategy, and including to carry out capacity building in this regard. The Partnership Training Institute Network (PTIN) was launched through the FSCF to bring the expertise and resources of the private sector, academia, and government to build food safety capacity, in addition to creating a network of food safety institutes and trainers in the region.

(e) Further to its operations, the APEC FSCF has an interest in collaborating with the Bank to foster food safety capacity in the developing world.

2. Common Objectives

(a) Consistent with their respective mandates, the Parties desire to cooperate in carrying out activities conducive to promoting and supporting capacity building to better ensure food safety. In carrying out such activities, the Parties will encourage adherence to internationally accepted food safety standards and best practices.

(b) The Parties anticipate that their collaboration will take place in three phases. Phase I is an ongoing process since 2008 and will continue till shortly after effectiveness of this Memorandum. Phase II will run immediately after effectiveness of this Memorandum and till the end of year 2013 and Phase III from the beginning of 2014 till termination of this Memorandum.

(i) Phase I: The Parties have collaborated to develop and implement successful food safety capacity building programs. Further work by the Parties to develop training in support of localized and suitable food safety systems, as called for by the Joint Statement of the 22nd APEC Ministerial Meeting held in Yokohama, Japan November 10-11, 2010, is underway.

(ii) Phase II: The following activities will be undertaken in this pilot phase: (A) development of capacity building programs, including the creation of a pilot program deploying reproducible training modules in priority areas, the effectiveness of which will be measured by success metrics; (B) preparation and implementation of a two to three-year plan for the development of training programs including said training modules; and (C) establishment of a network among food safety institutes, trainers, and practitioners to deploy training programs including the use of said training modules.
(iii) Phase III: The following activities will be undertaken in this scale-up phase: (A) implementation of capacity building programs deploying reproducible training modules through scale-up of the pilot program developed under Phase II; (B) strengthen the network of food safety institutes, trainers, and practitioners to deploy training programs including the use of said training modules; and (C) sharing of lessons learned, best practices, training modules, and experience gained by the FSCF and PTIN as a model to build food safety capacity on a global basis.

3. **Forms of Collaboration**

Further to the achievement of their common objectives, the Parties will work collaboratively to consider ways to mobilize resources and funding for activities undertaken, including but not limited to provision of staff time, consultants, in-kind contributions and facilities. The Parties intend to consider ways to (i) share knowledge, ideas and expertise, (ii) collaborate on organization and execution of projects and programs, dissemination of the lessons learned from projects and programs, and organization of such joint events as workshops, conferences and training seminars, (iii) collaborate to engage in dialogue with stakeholders and others interested in activities being undertaken pursuant to this Memorandum or join other entities engaged in activities related to those being undertaken pursuant to this Memorandum, (iv) periodically evaluate the effectiveness of working in collaboration with each other with reference to their respective organizational mandates and priorities.
